

GLADIATOR

Mono-silicic acid with
boron and calcium

ACTIVE CALCIUM SUPPORT & PLANT STRENGTHENING

ABUNDIGRO GLADIATOR is a unique formula for rapid Calcium uptake and calcium corrections. It can be applied already early in the season and guarantees a quick calcium uptake, improved cell walls and internal structure all over the plant.

ABUNDIGRO GLADIATOR is a stabilized formula of mono-silicic acid, calcium and boron.

USAGE DETAILS

Dilution	GLADIATOR must always be diluted in water before use. Use 300 to 500 litres of water per Ha.
Method	GLADIATOR can be applied by foliar spray to the leaf or by fertirrigation to the root area.
Preparation	Fill tank with clean water, add first GLADIATOR progressively while mixing. Add if needed other foliar products and spray the obtained solution within 4 hrs.
Dosage	Under normal conditions the dosage for GLADIATOR is 500 ml per Ha.
Frequency	Repeat the treatment every 15 to 30 days, as needed
Storage	Not in direct sunlight, stored between 15 °C ° and 30 °C

PRODUCT DETAILS

Content: 5000 ml

Weight: 5.65 kg

Expiration: 2 years after production date

Distributed by:

HAZARD

- H290** May be corrosive to metals.
- H314** Causes severe skin burns and eye damage.
- H318** Causes serious eye damage.

PRECAUTIONS

- P102 Keep out of reach of children.
- P280 Wear protective gloves / eye protection.
- P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P501 Dispose of contents/container in accordance with local/regional/international regulations.

COMPOSITION:

- Calcium (CaO):** 8%
- Silicon (Si):** 0.8%
- Boron (B):** 0.2%
