

GENESIS
C4L Technology

SHAKE WELL BEFORE USE

Very important!

To agitate, shake well before use
Store at room temperature
Keep out of direct sunlight
Keep container closed when not in use
Triple rinse once decanted

CHAMPION

Soil Enrichment

OPTIMIZING NUTRIENT
MOBILITY, ELEVATING
PHOTOSYNTHESIS

Abundigro Champion contains 100's of beneficial compounds for the promotion of plant and turf growth, health and stimulation of nutrient uptake.

INCLUDING:

Proteins, amino acids, antioxidants, *Ecklonia maxima* kelp seaweed cell sap, complex carbohydrates, calcium, fulvic acid magnesium, zinc, and A, C, E, B-vitamins.

INSTRUCTIONS FOR USE:

SOILS:

5 to 10 L/ha.
Weekly, bi-weekly or monthly, as required.

SPOT-SPRAYING:

1:10 ratio with water.
Apply as required.

CHEMICAL ANALYSIS:

Total Nitrogen (N):	11.11 g/L	Sulfur (S):	5 303.52 mg/L
Phosphorus (P):	1 295.37 mg/L	pH:	3.06 Neat at 20,4 °C
Potassium (K):	1 882.23 mg/L

COUNTRY OF ORIGIN: REPUBLIC OF SOUTH AFRICA

Approved for restricted use in organic systems in accordance with EC regulation 834/2007 and 889/2008 by Organic Farmers & Growers

20 Le

BIOLOGICAL INGREDIENTS:

Protein Hydrolysate

The highest quality nitrogen for plant growth and microbial support.
Full natural Macro and Micro nutrient spectrum.
Support root and root hair development, shoot and leaf growth as well as pollination and fruit set.
Rich source of proteins, vitamins, amino- and organic acids, polysaccharides, and mineral compounds.

1. Ukelp, from cold-pressed Ecklonia maxima kelp, combats abiotic and biotic stresses, bolstering plant resilience.
2. It spurs growth hormone synthesis, fostering robust plant development and higher yields.
3. With its amino acid richness, Ukelp enhances plant health, promoting protein synthesis and stress resistance.

Fulvic Acid

Contains organic acids which are natural chelating agents improving the uptake of fertilisers, releasing confined nutrients and facilitating nutrient assimilation.

1. Genesis C4L Technology optimizes photosynthetic efficiency, enabling plants to respond adeptly to stress signals.
2. It facilitates precise gene regulation, ensuring plants express their true genetic potential.
3. C4L empowers plants to efficiently manage stressors by enhancing their signaling mechanisms.

Citric Acid

Preserve, acidify and improve Krebs Cycle.

SYNERGISTIC ABUNDIGRO SOLUTIONS

Strengthen your plants from the inside out with Gladiator, providing crucial cell wall fortification and improved nutrient uptake for enhanced resilience against stress and disease. Includes Mono-silicic acid with Boron and Calcium

Ukelp, cold pressed from Ecklonia maxima kelp, naturally promotes plant health by supporting growth hormone synthesis. It's ecologically harvested, ensuring sustainability. Packed with essential nutrients and amino acids, Ukelp boosts root development, stress relief, resilience, and nutrient uptake, embodying nature's potency for natural success.

Enhance your foliar applications with Super Surfer's triple-action formula, guaranteeing uniform coverage and distribution across foliage and within the soil, improved nutrient absorption, and pH buffering, leading to healthier and more robust plants.

WARNINGS:

Causes eye irritation
Causes skin irritation
Keep out of reach of children
Read label before use

PRECAUTIONARY STATEMENTS:

Wash hands thoroughly after handling.
If skin irritation occurs: Get medical attention.

IF IN EYES:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
